Coolant Type D

Description

A "long life" OAT (Organic Additives Technology) automotive coolant based on monoethyleneglycol and demineralized water with addition of additives to obtain the following properties:

- a perfect protection of all types of metals that are used in engines and cooling systems
- a neutral behaviour towards seals, gaskets and hoses
- a very good resistance against formation of foam
- nitrite, amine, phosphate and silicate free
- colored amaranth

Application

This coolant may be used all the year round in the cooling systems of gasoline and diesel engines. This coolant is ready for use and protects against freezing down to -45 °C.
